

STRAY CR PROJECT REC RELATED REVIEW:**K. Edwards 9/29/19****ROS Designation/Acres:** All of the project area is within Roaded Modified**MA & REC Direction:** All of the Project area is within E1**Rec Direction for E1: Project Meets Forest Plan Standards related to RECREATION: (Diana will assess VQO's)****1. Recreation
Standards**

- a. Manage a roaded natural setting for dispersed recreation.
- b. Manage areas seen from Management Areas A4, A5, and A6 to meet the adopted VQOs shown in Appendix G.

**8. Facilities
Goals**

- a. Manage for all levels of difficulty of ORV use on trails.
- b. Regulate use of roads and Walls (to motorized vehicles) where needed to accomplish wildlife, watershed objectives, or property values. Manage seasonal and year-long road closures to provide security for elk to meet area objectives.

Standard

Design and develop road systems in accordance with area transportation plan procedures.

SPECIAL MA Designations: (NRA/ROADLESS/WILDERNESS ETC): No special Management area designations**CONSTRUCTED FACILITIES w/in Project Area:**

- Trails : Primary concern is winter use of Rds 514 and 519, which are both groomed snow routes. Include design features or mitigation measures to address
